

Project Design Phase-II
Data Flow Diagram & User Stories

Date	1 July 2026
Team ID	
Project Name	Credit Card Approval Prediction
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

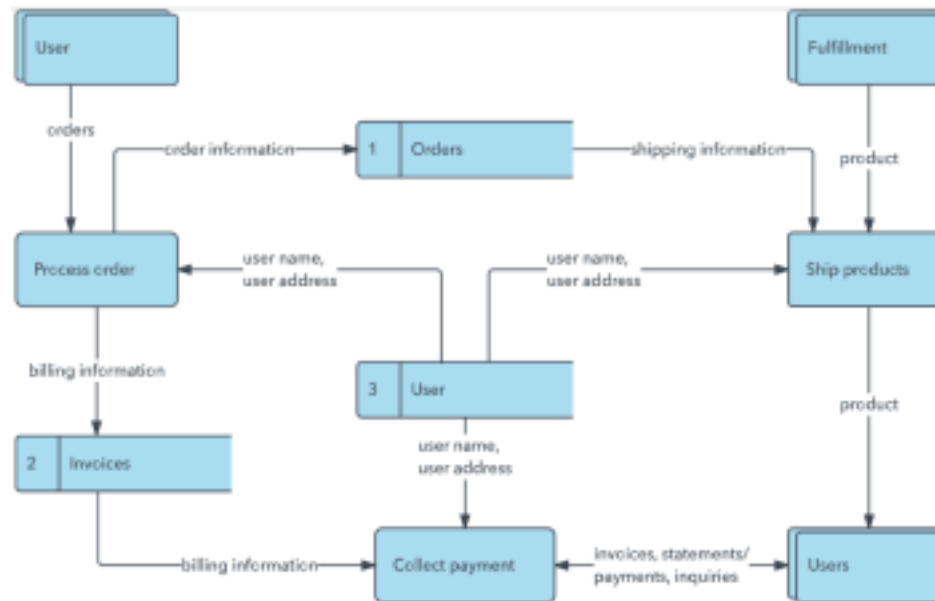

Example: [\(Simplified\)](#)

Example: DFD Level 0 (Industry Standard)

Flow

1. User configures credentials for the Watson Natural Language Understanding service and starts the app.
2. User selects data file to process and load.
3. Apache Tika extracts text from the data file.
4. Extracted text is passed to Watson NLU for enrichment.
5. Enriched data is visualized in the UI using the D3.js library.

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Mobile user)	Registration	USN-1	As a user, I can register for the application by entering my email, password, and confirming my password.	I can access my account / dashboard	High	Sprint-1
Customer (Web/Mobile User)	User Confirmation	USN-2	As a user, I will receive confirmation email once I have registered for the application	I can receive confirmation email & click confirm	High	Sprint-1
Customer (Web/Mobile)	Login	USN-3	As a user, I can register for the application through Facebook	I can register & access the dashboard with	Low	Sprint-2

User)				Facebook Login		
Customer (Web/Mobile User)	Credit Card Application	USN-4	As a user, I can register for the application through Gmail	Application form is submitted successfully.	Medium	Sprint-1
Customer (Web/Mobile User)	Dashboard	USN-5	As a user, I can log into the application by entering email & password	Dashboard displays user information and options.	High	Sprint-1
Customer (Web/Mobile User)	Document Upload	USN-6	As a user, I can upload the required documents.	Documents are uploaded without errors.	High	Sprint-2
Customer (Web user)	Prediction	USN-7	As a user, I can submit my application for prediction.	The system processes the application successfully.	High	Sprint-2
Customer Care Executive Administrator	Prediction Result	USN-8	As a user, I can view whether my application is approved or rejected.	Prediction result is displayed correctly.	High	Sprint-3
Customer (Web user)	Application Management	USN-9	As an executive, I can view and manage customer applications.	Executive can access and update application status.	Medium	Sprint-3
Customer Care Executive Administrator	User & System Management	USN-10	As an administrator, I can manage users and monitor the system.	Administrator can manage users and system records successfully.	High	Sprint-4
