Project Name	Credit Card Approval Prediction
Maximum Marks	2 Marks

Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

Purpose:

- ☐ Solve complex problems in a way that fits the state of your customers.
- ☐ Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- ☐ Sharpen your communication and marketing strategy with the right triggers and messaging.
- ☐ Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- ☐ **Understand the existing situation in order to improve it for your target group.**

Template:

1. CUSTOMER SEGMENT(S) Who is your customer? i.e. working parents of 3-5 yrs. kids	4. CUSTOMER CONSTRAINTS What constraints prevent your customers from taking action or limit their choices of solutions? i.e. spending power, budget, no cash, network connection, available devices.	5. AVAILABLE SOLUTIONS Which solutions are available to the customers when they face the problem or need to get the job done? What have they tried in the past? What pros & cons do these solutions have? i.e. get an lawyer to get alternative to digital marketing
3. JOBS-TO-BE-DONE / PROBLEMS Which jobs to be done (or problems) do you address for your customer? There could be more than one require different roles.	6. PROBLEM-SOFT CASE What softest reason that this problem exist? What is the back story behind the need to do this job? i.e. customers have to do it because of the change in regulations.	7. BEHAVIOUR What does your customer do to address the problem and get the job done? i.e. directly related, find the right color panel/matrix, solution usage and benefits; indirectly associated: customers spend time time on understanding work (i.e. Greenpeace)
3. TRIGGERS What triggers customers to act? i.e. seeing their neighbor installing solar panels, reading about a more efficient solution in the news.	10. YOUR SOLUTION If you are working on an existing business, write down your current solution flow, fit to the gaps, and check how much it fits reality. If you are working on a new business proposition, then design it from start until you fit to the gaps and come up with a solution that fits within customer limitations, address a problem and matches customer behavior.	8. CHANNELS OF BEHAVIOUR 8.1 ONLINE What kind of actions do customers take online? Extract online channels from IT 8.2 OFFLINE What kind of actions do customers take offline? Extract offline channels from IT and use them for customer development.
4. EMOTIONS: BEFORE / AFTER How do customers feel when they face a problem or a job and afterwards? i.e. feel, measure – confident, in control – use it in your communication strategy & design.
